# CopperHead® Max 16:8

Nutritional Supplement

A Free Choice Mineral and Vitamin Supplement for Beef Cattle on Pasture

## Guaranteed Analysis

Calcium (Min)	16.00%
Calcium (Max)	19.20%
Phosphorus (Min)	8.00%
Salt (Min)	10.00%
Salt (Max)	12.00%
Magnesium (Min)	2.00%
Potassium (Min)	1.00%
Sulfur (Min)	1.50%
Cobalt (Min)	20 ppm
Copper (Min)	2,500 ppm
Iodine (Min)	100 ppm
Manganese (Min)	2,700 ppm
Selenium (Min)	26 ppm
Zinc (Min)	4,000 ppm
Vitamin A (Min)	200,000 IU/lb.
Vitamin D-3 (Min)	50,000 IU/lb.
Vitamin E (Min)	100 IU/lb.

## Ingredients

Monocalcium Phosphate, Dicalcium Phosphate, Salt, Calcium Carbonate, Cane Molasses, Soybean Hulls, Magnesium Sulfate, Potassium Sulfate, Magnesium Oxide, Zinc Proteinates, Manganese Proteinates, Copper Proteinates, Cobalt Proteinates, Copper Sulfate, Zinc Sulfate, Manganese Sulfate, Cobalt Carbonate, Calcium Iodate, Plant Protein Products, Sodium Selenite, Petrolatum, Vitamin A Supplement, Vitamin D-3 Supplement, Vitamin E Supplement, Synthetic Red Iron Oxide, Mineral Oil and Caramel Flavoring.

## Feeding and Management Directions

### Mineral Program

Sweetlix® CopperHead® Max 16:8 with RainBLOC™ is a 2:1 calcium to phosphorus mineral scientifically formulated to be fed free choice to beef cattle on pasture. Sweetlix CopperHead Max 16:8 with RainBLOC helps your animals attain maximum performance by providing a balanced intake of

supplemental minerals and vitamins. All ingredients are selected for high biological availability and stability to deliver optimal nutrition to your livestock. The addition of RainBLOC to this product results in an improved resistance to moisture. Typically, following a rain event, a thin, pliable crust forms on the top of this product (when in a good mineral feeder) and protects the product below the crust from becoming hardened. This crust is easily consumed by cattle and does not need to be broken apart. Results may vary during periods of extreme rainfall.

### Free Choice Recommendations

Mature beef cattle should consume 4 oz. per head per day. Four (4) ounces of this product provides 3 mg selenium. Provide one covered mineral feeder for every 20 to 30 animals. Locate each mineral feeder near a clean, fresh source of water. Mineral consumption levels will vary depending upon the mineral status of the animals.

**CAUTION:** Follow label directions. Consumption of selenium should not exceed 3 mg per head per day.
