CAUTION:

Follow label directions. Four (4) ounces of this product provides 3 mg selenium. Consumption of selenium should not exceed 3 mg per head per day.

Feeding and Management

Mineral Program

SWEETLIX® 12:12 is a 1:1 calcium to phosphorus mineral scientifically formulated to be fed free choice or mixed with the grain or roughage portion of the ration. SWEETLIX® 12:12 helps your animals attain maximum performance by providing a balanced intake of supplemental minerals and vitamins. All ingredients are selected for high biological availability and stability to deliver optimal nutrition to your livestock.

Free Choice Recommendations

Feed at the rate of 2 to 4 oz. per head per day. Provide one covered mineral feeder for every 20 to 30 animals. Locate each mineral feeder near a clean, fresh source of water. Mineral consumption levels will vary depending upon the mineral status of the animals.

Mixing Recommendations

Mix at the rate of 10 to 25 lb. per ton of complete feed. The amount of this product used will depend upon the mineral status of the ingredients in the ration and the stage of production of the animals.
