**Ingredients**

Cane Molasses, Soybean Hulls, Magnesium Oxide, Salt, Calcium Carbonate, Petrolatum, Dicalcium Phosphate, Potassium Chloride, Potassium Sulfate, Magnesium Sulfate, Magnesium Oxide, Vitamin A Supplement, Vitamin D-3 Supplement, Vitamin E Supplement, Riboflavin Supplement, d-Calcium Pantothenate, Thiamine Monoitrate, Niacin Supplement, Choline Chloride, Vitamin B-12 Supplement, Menadione Dimethylpyrimidinol Bisulfite, Folic Acid, Pyridoxine Hydrochloride, Biotin, Ferrous Sulfate, Zinc Oxide, Manganous Oxide, Copper Sulfate, Ethylenediamine Dihydriodide, Potassium Iodide, Iron Carbonate, Cobalt Carbonate, Sodium Selenite, Processed Grain By-Products and Mineral Oil.

**CAUTION: USE AS DIRECTED.**

Follow feeding directions.  
Consumption of selenium should not exceed 3 mg per head per day.

**Feeding and Management**

1. Feed 1 block per 5 head of cattle. This allows all animals equal access to blocks.
2. Place blocks where animals congregate. Locate blocks throughout pasture, placing them near water and loafing areas. Maintain adequate distance between blocks (10 ft. minimum).
3. Do not allow animals to run out of blocks. When a block is half-consumed, place a new block near it. Place very small pieces in troughs or feed pans.
4. Cattle will consume approximately 5 oz. per head daily. When cattle consume the block at the recommended rate, it will supply 3 mg of supplemental selenium and 19 g of supplemental magnesium.
5. Blocks can be fed to animals in confinement. Exact location of blocks to obtain desired consumption will vary between confinement feeding programs.
6. Feed as the only FREE CHOICE source of salt, other minerals and vitamins.

Provide fresh, clean water to all animals at all time.
