### CAUTION: Follow feeding directions.

Daily consumption of selenium should not exceed 0.7 mg per head.

Contains added copper. **DO NOT FEED TO SHEEP.**

### Feeding and Management

Sweetlix 20% All Natural Protein Goat Block is a protein/energy supplement scientifically formulated especially for the needs of goats. Feed to goats on pasture free choice. Sweetlix 20% All Natural Protein Goat Block helps goats

attain maximum performance by providing protein and energy in conjunction with a complete vitamin and trace mineral supplement, which includes copper. All ingredients are selected for high biological availability and stability to deliver optimal nutrition to your goats.

### Mineral Program

1. Feed 1 block per 10 head of goats to allow all animals equal access to blocks.
2. Place blocks where goats congregate, near water and loafing areas. Maintain adequate distance between blocks (minimum 10 feet).
3. Do not allow goats to run out of blocks. When a block is half-consumed, place a new block near it. Place very small pieces in troughs or feeders.
4. While individual consumption may vary according to the nutritional needs of your goats, most adult goats will consume 2-4 oz. per head per day.

Four (4) ounces of Sweetlix 20% All Natural Protein Goat Block will provide 0.7 mg of selenium.
