

FORMAX CALF FINISHER

INGREDIENT NUMBER—233800

MEDICATED:

For increased rate of weight gain in pasture cattle (slaughter, stocker, feeder, and replacement heifers)

Active Drug Ingredient:

LASALOCID

20GM/TN

CAUTION:

The safety of Lasalocid in unapproved species has not been established. Do not allow horses or other equine access to Lasalocid as ingestion may be fatal; Feeding undiluted or mixing errors resulting in excessive concentrations of Lasalocid could be fatal to cattle.

Directions:

Feed continuously at a rate of no less than 60mg nor more than 200mg of Lasalocid per head per day. This feed contains 10 mg per pound

Guaranteed Analysis:

CRUDE PROTEIN, not less than 11.50%

CRUDE FAT, not less than 2.50%

CRUDE FIBER, not more than 15.00%

Ingredients

Grain Products, Processed Grain Byproducts, Plant Protein Products, Roughage Products, Calcium Carbonate, Molasses Products, Ammonium Chloride, Lasalocid, Dicalcium Phosphate, Salt, Vitamin A Supplement, Vitamin D Supplement, Vitamin E Supplement, Lasalocid, Magnous Oxide, Zinc Oxide, Ferrous Carbonate, Copper Oxide, Calcium Iodate, Cobalt Carbonate, Sodium Selenium, Magnous Sulfate, Zinc Sulfate, Copper Sulfate, Anise Powder, Magnesium Oxide, Sodium Bicarbonate, Potassium Sulfate, and Sacchanomyces Yeast Culture

Manufactured by

ALABAMA FARMERS COOPERATIVE, INC.

Decatur, Alabama 35601

Feeding Directions:

A top of the line, all natural protein, beef ration designed as a complete feed to be used with show cattle.. Performance Beef utilizes Fitters Choice 32% Concentrate along with corn, oats and cottonseed hulls to provide show cattle with all the nutrients they need to grow and perform. Ingredients, proven to benefit show animals have been included in this feed. Anise Powder, Sodium Bicarbonate, Lasalocid, Ammonium Chloride, and Yeast have been included in this feed for maximum growth, muscle development, and bloom. This feed is recommended as a complete feed to cattle being fed as part of Alabama Farmers Cooperative, Youth Show Calf Scholarship Program. If you would like more information on this program please contact your local cooperative store. This feed contains Lasalocid (Bovatec) which promotes growth, feed efficiency and prevents coccidiosis. Bovatec does not affect reproduction of cattle. This supplement also contains all the minerals and vitamins required by the animal on a daily basis. This feed can be fed free choice to animals, though cattle needs to consume no more than 3% of their body weight of this feed on a daily basis. (ex. 1000 lb. Calf X 3% = 30 lbs.) When hand feeding, remember as the calf grows, you will need to increase the daily feed. Any additions of ingredients to this feed may not be fed free choice. Do not allow horses or other equine species access to this product. Do not feed this product to sheep. When formulating feeding programs for beef cattle, it is recommended that you contact an Animal Nutritionist for further assistance in putting together a complete feeding program to avoid nutritional disorders. Always provide free choice hay or other available forage when feeding this product.

Important Management Practices:

Provide a source of fresh clean water, and free choice minerals at all times. When making any changes in the animals diet allow a 7 to 10 day transition period. Provide ample feeder space for livestock. Do not allow feed to become wet or moldy. Poorly managed feeding programs can lead to nutritional disorders.
