

Horizon Senior

Horizon Senior is designed to be fed with or without forage. It can be fed as a grain concentrate for older horses with sound teeth that are eating hay or pasture. Because of its high soluble fiber content, it can also be used as a complete feed for the dentally impaired or severely underweight horse.

Horizon Senior should be feed a rate of 0.5 to 1 lb. per 100 lbs. of body weight on senior horses with sound teeth. It should be fed at a rate of 1 to 2 lbs. per 100 lbs. of body weight on senior horses with impaired dental surfaces.
