Manufactured by

ALABAMA FARMERS COOPERATIVE, INC.

Decatur, Alabama 35601

Feeding Directions:

A top of the line, all natural protein, sheep feed pellet designed as a complete feed to be used with show lambs or as a creep feed for young lambs.. Performance Sheep utilizes several high quality ingredients such as corn, alfalfa meal, fish meal, and soybean meal to provide show lambs with all the nutrients they need to grow and perform. Ingredients, proven to benefit show animals have also been included in this feed. Sodium Bicarbonate, Decoquate,, Ammonium Chloride, and Yeast have been included in this feed for maximum growth, muscle development, and bloom. This feed is recommended as a complete feed to lambs being fed as part of Alabama Farmers Cooperative, Youth Show Lamb Scholarship Program. If you would like more information on this program please contact your local cooperative store. This feed contains Decoquate, which promotes growth, feed efficiency, and prevents coccidiosis. This supplement also contains all the minerals and vitamins required by the animal on a daily basis. This feed contains no additional copper other than that naturally occurring in ration ingredients. Do not allow horses or other equine species access to this product. Do not feed free choice. When formulating feeding programs for sheep, it is recommended that you contact an Animal Nutritionist for further assistance in putting together a complete feeding program to avoid nutritional disorders. Always provide free choice hay or other available forage when feeding this product. This feed makes an excellent creep feed for young lambs. This feed is very palatable and is easily accepted by young lambs.

Important Management Practices:

Provide a source of fresh clean water, and free choice minerals at all times. When making any changes in the animals diet allow a 7 to 10 day transition period. Provide ample feeder space for livestock. Do not allow feed to become wet or moldy. Poorly managed feeding programs can lead to nutritional disorders.
