

SOUTHFRESH

Deer Feed

Item number 291300

Southfresh Deer Feed is specifically formulated to meet and exceed the nutritional requirements of whitetail deer.

It is different from most feeds, because the ingredients are extruded. This process cooks the ingredients improving performance.

It has been field-tested and is fortified with vitamins and minerals to promote antler growth and body weight.

This feed is water resistant with an attractive scent and distinct texture.

Southfresh Deer Feed is a dietary insurance policy, helping ensure the health of your herd.

Feeding Directions

Feed free choice in an area of high deer activity with access to water. Animals should have access to adequate vegetation or good quality hay. Animals in confinement may be fed at a rate of one to two pounds per 100 pounds of body weight along with free choice good quality roughage. Store in a dry, well ventilated area. Never use insect infested or molded feed.

Caution: This product contains copper. Do not feed to sheep or related species.
